General Instructions:

Cross stitch over-two using two strands of floss. When two floss colors are bracketed together, use one strand of each color. Backstitch using one strand of floss.

Backstitching Instructions:

Kreinik 002V #4 vintage gold braid:

Stitch the border "net" pattern using one strand. Make long straight stitches, and then "tack" the braid in place where the strands cross (indicated on chart by +) using 1 strand 729.

839: Backstitch the rest of the design using one strand.

Note: Regarding the blue-purple in the border: You may choose to do full cross stitches instead of all of the fractional stitches that are charted. It's up to you.
